

Microsoft Azure Dev Tools for Teaching

What is Microsoft Azure Dev Tools for Teaching?

Microsoft Azure Dev Tools for Teaching puts professional developer tools, software, and services in the hands of faculty and students from Microsoft. Students receive developer tools from Microsoft at no cost – everything needed to create apps, games and websites –so they can chase their dreams, create the next big breakthrough in technology, or get a head start on their career.

Formerly known as Microsoft Imagine, this subscriptions program has changed to Azure Dev Tools for Teaching. All current Imagine subscriptions have automatically transitioned to Azure Dev Tools for Teaching and have access to the same software tools they have enjoyed with Imagine.

HOW TO ACCESS

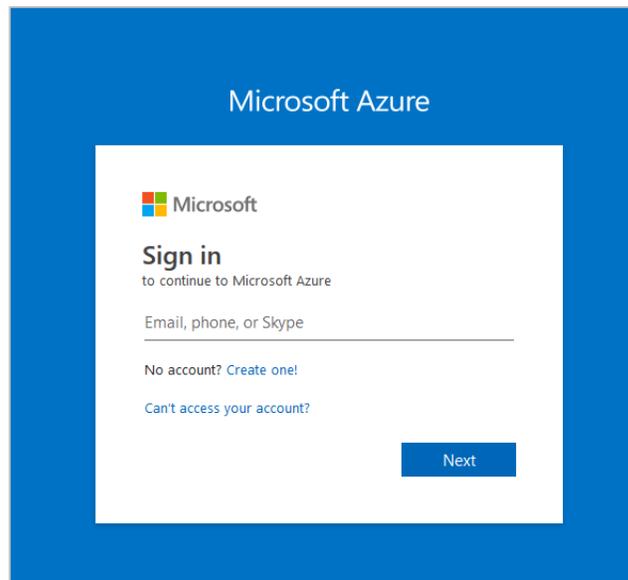

Sign up

1. Go to <https://azureforeducation.microsoft.com/devtools>
2. Click **Sign In**

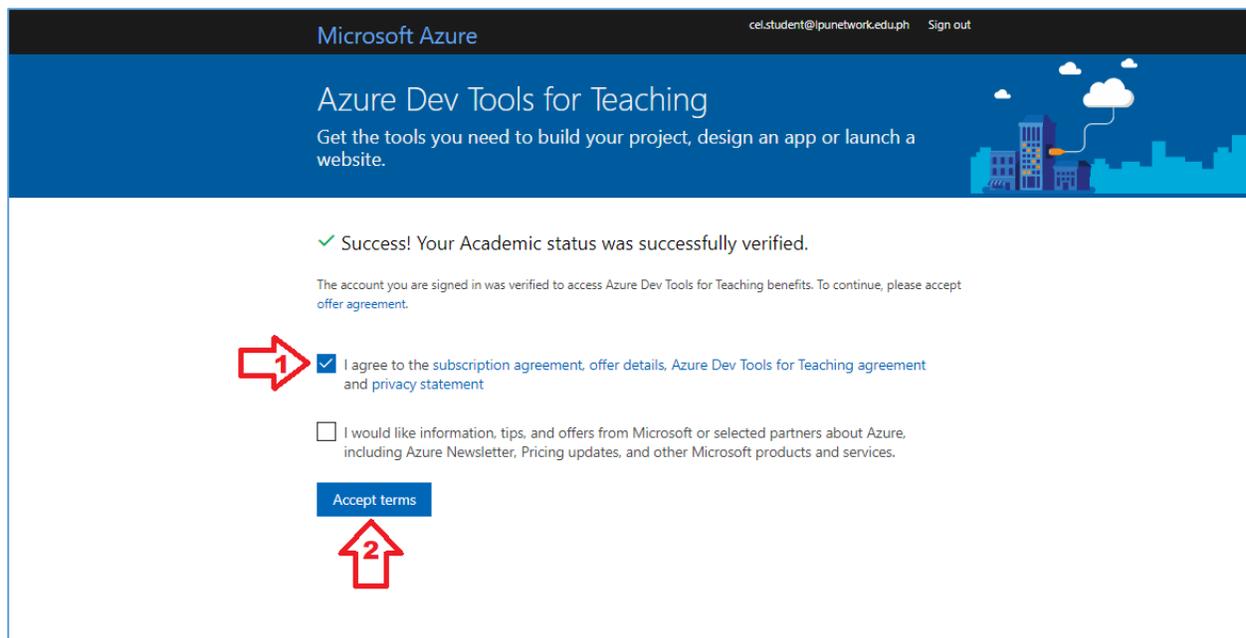

A screenshot of the Microsoft Azure website's sign-in page for Azure Dev Tools for Teaching. The page has a dark header with the Microsoft Azure logo, contact information, search bar, and navigation links like 'My account', 'Portal', and 'Sign in'. Below the header is a navigation menu with 'Overview', 'Solutions', 'Products', 'Documentation', 'Pricing', 'Training', 'Marketplace', 'Partners', 'Support', 'Blog', and 'More'. A 'Free account' link is visible on the right. A cookie consent banner is present. The main content area features the heading 'Azure Dev Tools for Teaching' with links for 'Enroll or Renew', 'Manage', and 'FAQ'. A message informs students that developer tools and learning resources are now available with Azure Dev Tools for Teaching and instructs them to sign in using a Microsoft Account. A note specifies to use the email from a previous Imagine subscription. A large blue arrow points to a 'Sign In' button. A footer note provides a link to a help guide for access issues.

3. Login using your Campus email (Office 365).

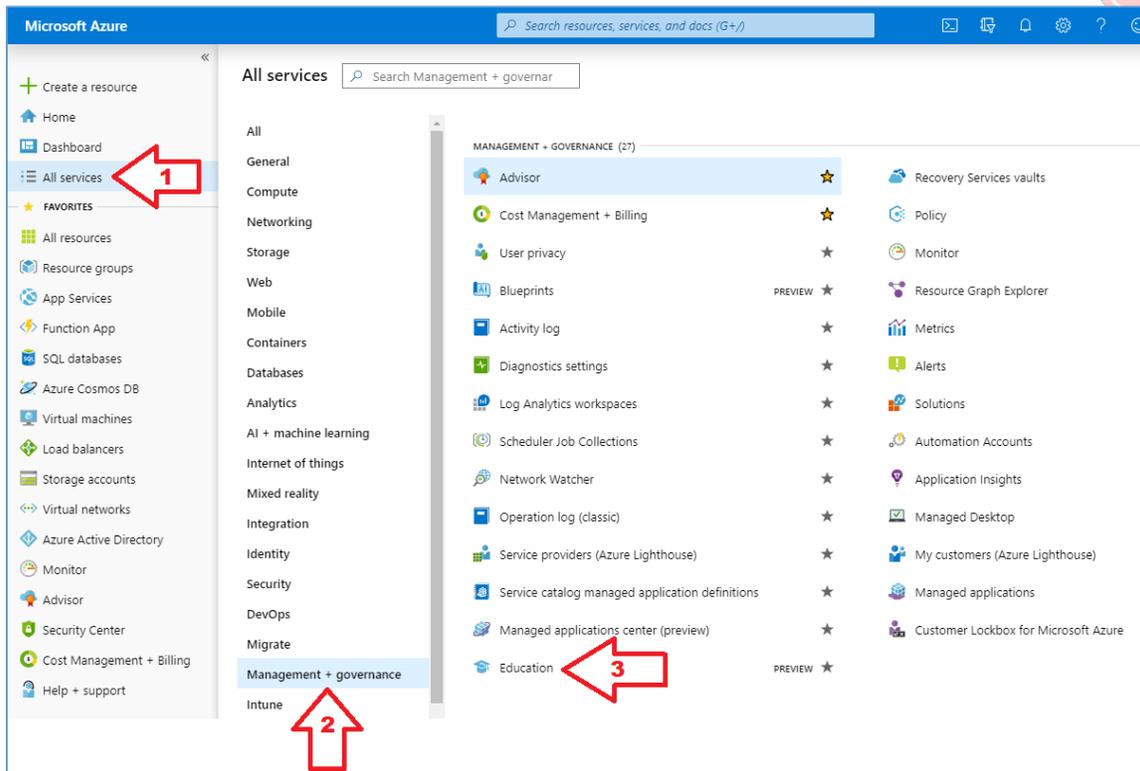

Note: If you forgot your Campus email, please visit the ICT at room 218 for assistance

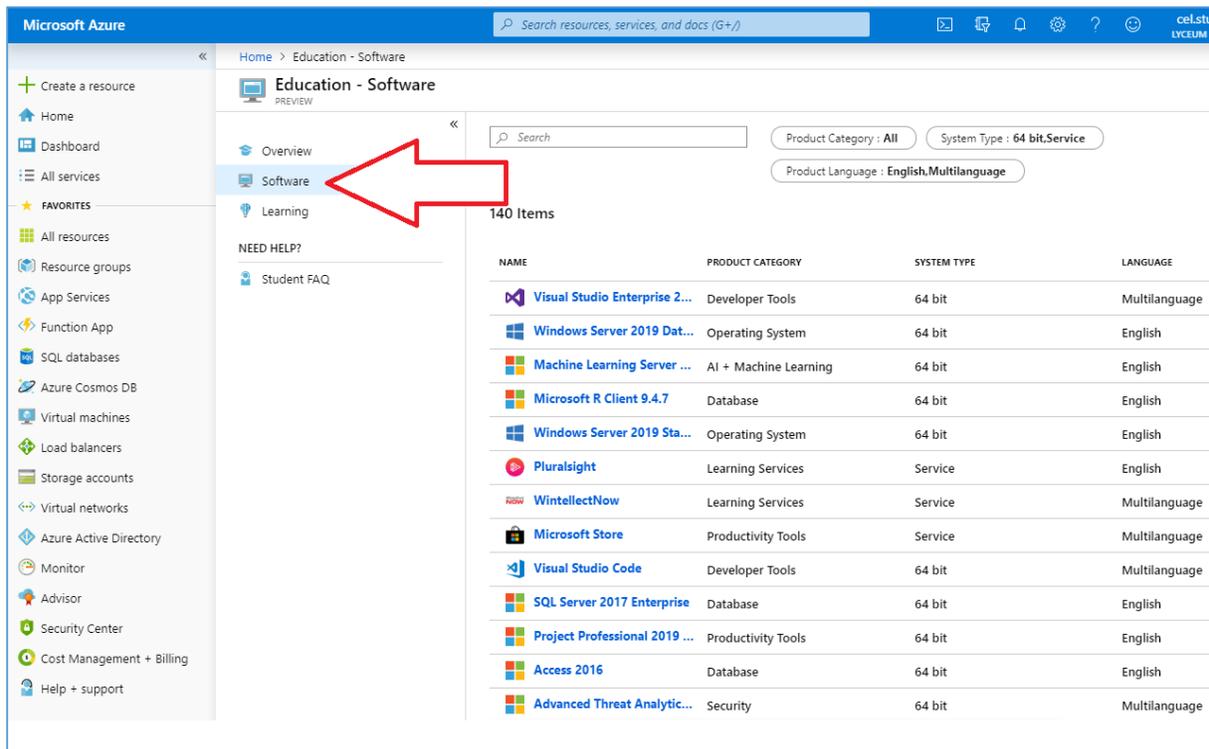

4. You will be redirected to the Azure verification page. Check **I agree** and click **Accept terms**

- Navigate to **All Services > Management + governance** and select **Education** or simply type **Education** in the search box

- Select **Software** to view the list of the tools and software available for download.

DOWNLOAD

7. Select one of the tools you wish to download and click the **Download** button.

The screenshot shows the Microsoft Azure portal interface. On the left is a navigation pane with options like 'Create a resource', 'Home', 'Dashboard', and 'All services'. The main area is titled 'Education - Software' and contains a list of software products. A red arrow labeled '1' points to the 'Windows 8.1 Professional' entry. On the right, a detailed view for 'Windows 8.1 Professional' is shown, including a description and a 'Download' button. A second red arrow labeled '2' points to this 'Download' button.
